Join us for an evening of **reflection, storytelling, and community dialogue** as we explore the meaning of freedom — from the American Revolution to the present day.

Community panelists will share perspectives on how the ideals of the Declaration of Independence both **challenged and inspired** the struggle for liberty and equality in America.

We will also explore the North Country's connection to these larger national stories and invite audience members to take part in an **open and welcoming conversation about freedom, history and community today**.

Whether you come to listen, share, learn, or reflect, **all are welcome**.

Panelists Include:
